<b>Seaweed Meal</b> Australian Organic	<b>\$37.50</b>	5kg

Products are considered organic if they have not been subjected to any chemical treatment in the fertilizer or livestock food.

Also, the farm produce has not been grown with additional man-made hormones to make them mature faster or grow at the same size for easier packaging, grading and shipment.

For organic farming, the land itself must also have been free from artificial fertilizers, pesticides and chemicals for at least three years.
